Action to be taken will require the processing and sharing of confidential patient information amongst health organisations and other bodies engaged in disease surveillance for the purposes of research, protecting public health, providing healthcare services to the public and monitoring and managing the Covid-19 outbreak and incidents of exposure.

I am therefore writing to inform you that I am serving notice under Regulation 3(4) of the Health Service (Control of Patient Information) Regulations 2002 (**COPI**) to require organisations to process confidential patient information in the manner set out below for purposes set out in Regulation 3(1) of COPI.

2.2. Organisations are only required to process such confidential patient information:

- 2.2.1. where the confidential patient information to be processed is required for a Covid-19 Purpose and will be processed solely for that Covid-19 Purpose in accordance with Regulation 3 of COPI and subject to Regulation 7 of COPI; and
- 2.2.2. from the date of this Notice until **30 June 2022** (which includes a case where the dissemination of the information in question was authorised by a previous regulation 3(4) Notice and began before the date of this Notice but which continues on or after that date).

3. Covid-19 Purpose

3.1 A Covid-19 Purpose includes but is not limited to the following:

- understanding Covid-19 and risks to public health, trends in Covid-19 and such risks, and controlling and preventing the spread of Covid-19 and such risks;
- processing to support the NHS Test and Trace programme;
- identifying and understanding information about patients or potential patients with or at risk of Covid-19, information about incidents of patient exposure to Covid-19 and the management of patients with or at risk of Covid-19 including: locating, contacting, screening, flagging and monitoring such patients and collecting information about and providing services in relation to testing, diagnosis, self-isolation, fitness to work, treatment, medical and social interventions and recovery from Covid-19;
- understanding information about patient access to health services and adult social care services and the need for wider care of patients and vulnerable groups as a direct or indirect result of Covid-19 and the availability and capacity of those services or that care;
