Annex A Section 2: NHS Providers	19

Background

The Health and Social Care Act 2012 (the Act) gives the Health and Social Care Information Centre, now known as NHS Digital and hereafter referred to by this name, statutory powers, under section 259(1)(a), to require data from health or social care bodies, or organisations that provide publicly funded health or adult social care in England, where it has been directed to establish an information system by the Secretary of State for Health and Social Care or NHS England.

The data, as specified by NHS Digital in this published Data Provision Notice, is required to support a Direction from NHS England to NHS Digital. Therefore, organisations that are in scope of the notice are legally required, under section 259(5) of the Act, to provide the data in the form and manner specified below.

Purpose of the collection

The information gathered from this collection will be used to enable NHS England to perform its pricing and licensing functions under the Act more effectively. It will:

- inform new methods of pricing NHS services;
- inform new approaches and other changes to the design of the currencies used to price NHS services;
- contribute to NHS England's strategic objective of a 'single national cost collection';
- inform the relationship between provider characteristics and cost;
- help trusts to maximise use of their resources and improve efficiencies, as required by the provider licence;
- identify the relationship between patient characteristics and cost;
- support an approach to benchmarking for regulatory purposes; and
- allow NHS England to report the impact of the COVID-19 pandemic on the cost base in the English NHS.

Benefits of the collection

Understanding how providers spend money is essential in tackling short-term deficits; supporting the development of new models of care and reducing the variation in resource utilisation.

The level of data available in reference costs is not granular enough to easily identify potential efficiency gains. Such data is limited in its ability to reflect the complexity of patient care and identify cost variation between individual patients. By implementing PLICS, a standardised method of reporting cost information at patient level this can be rectified. This will be produced by patient-level information and costing systems (PLICS).

NHS England's Costing Transformation Programme (CTP) was established to implement PLICS across Acute, Mental Health, Ambulance and Community providers. The programme entails:

- introducing and implementing new standards for patient level costing;
- developing and implementing one single national cost collection to replace current multiple collections;
- establishing the minimum required standards for costing software and promoting its adoption; and
- driving and encouraging sector support to adopt Patient Level Costing methodology and technology.

This collection is being undertaken as part of that Programme and comprises data from up to 37 providers of acute, mental health and community services as per Annex A Section 2 of the [Requirements Specification for Patient Level Information and Costing Systems \(PLICS\) Early Implementers Collection for Further Services](#) and associated published [Direction](#).

Additional benefits include that PLICS data may be released when appropriate to do so under Data Sharing Agreements by NHS Digital and in line with the [Direction](#), to organisations, including universities, where it can be used for research to better inform delivery of effective and efficient healthcare services in the future.

Legal basis for the collection, analysis, publication and dissemination

Collection:

NHS Digital has been directed by NHS England under section 254 of the Health and Social Care Act 2012; to establish and operate a system for the collection and analysis of the information specified for this service as per the [Requirements Specification for Patient Level Information and Costing Systems \(PLICS\) Early Implementers Collection for Further Services](#).

This information is required by NHS Digital under section 259(1)(a) of the Health and Social Care Act 2012.

In line with section 259(5) of the Act, all organisations in scope, in England, must comply with the requirement and provide information to NHS Digital in the form, manner and period specified in this Data Provision Notice.

This Notice is issued in accordance with the procedure published as part of NHS Digital duty under section 259(8).

The NHS Digital Executive Management Team (EMT) considered and accepted the Direction in October 2022.

The accepted Direction is available [here](#).

Analysis:

Data received at NHS Digital is validated against an XML (Extensible Markup Language) schema. The outcome of schema validation is provided to providers. Data is processed, including further data quality checks, calculations and derivations being undertaken if relevant, and then pseudonymised before being provided to NHS England. Additional analysis on the data may be undertaken by NHS Digital upon request from the NHS England costing programme.

Linkage:

NHS England has requested that this data is not linked to other existing data held by NHS Digital. However, a number of data items are collected to enable investigation of the performance of existing PLICS linkage processes already used via the mandatory collections

Data Dissemination:

NHS Digital, in accordance with section 261 (1) and 261(4) of the 2012 Act, disseminates data via the Data Access Request Service (DARS) process. This process verifies that there is an appropriate legal basis for an applicant to access the requested data and that appropriate safeguards are in place to ensure that the applicant will store and handle data safely and securely.

A signed Data Sharing Framework Contract (DSFC) and Data Sharing Agreement (DSA) are each already in place between NHS Digital and NHS England, having been through the DARS process.

A change to that DSA will require a further application through DARS and consideration by the [Independent Group Advising on the Release of Data \(IGARD\)](#).

Requests for data from external bodies for analysis and/or publication purposes will be subject to approval from NHS Digital, such as through DARS and consideration by IGARD as referenced above.

NHS Digital will not disseminate confidential patient information about an individual who has set a national data opt-out, where the national data opt-out policy applies.

Publication:

NHS Digital and NHS England have agreed that NHS Digital will not publish the pilot data collected as part of this Direction under Section 260(1) of the 2012 Act due to the information obtained falling under Section 260(2)(a) and (b).

Persons consulted

Following receipt of a Direction for the continued implementation of PLICS collections, NHS Digital has, as required under section 258 of the Health and Social Care Act 2012, consulted with the following persons:

- NHS England
- Trusts who have volunteered to take part in the early implementers collection for Further Services FY 21/22 data as detailed in Annex A Section 2 of this document.
- Representatives of other stakeholders who NHS Digital considers are likely to use the information to which the Mandatory Request relates, for example, relevant Arm's Length Bodies (ALBs).

Scope of the collection

Under section 259(1)(a) of the Health and Social Care Act 2012, this Notice is served in accordance with the procedure published as part of the NHS Digital duty under section 259(8) on the trusts who have agreed to participate as set out in at Annex A Section 2 of this Notice.

On receipt of this DPN, trusts which have agreed to participate (as per Annex A Section 2) are legally required to submit activity and financial data as per Annex A Section 1 of the [Requirements Specification for Patient Level Information and Costing Systems \(PLICS\) Early Implementers Collection for Further Services for FY 2021/22](#) and associated [Direction](#).

Further information on this PLICS collection is provided on the NHS Digital [website](#) and the [PLICS early implementers: Voluntary cost collection for further services 2021/22 guidance](#) published by NHS England is available on the Open Learning Platform (OLP). Access to this is via login, should you require support accessing the OLP please contact costing@england.nhs.uk.

Under section 259(5) of the Health and Social Care Act 2012 the organisation types specified in the above Scope must comply with the Form, Manner and Period requirements below.

Form of the collection

The PLICS data to be collected can be found in Annex A Section 1 of the published [Requirements Specification for Patient Level Information and Costing Systems \(PLICS\) Early Implementers Collection for Further Services for FY 2021/22 data](#) and associated [Direction](#).

The [Extract Specification](#) for collection is available on the Open Learning Platform (OLP).

Submissions will be sent into NHS Digital in XML format.

The format and structure of the XML files are detailed in the [Schema](#) on the OLP.

Manner of the collection

Providers submitting data will transfer it in a secure manner, using the NHS Digital [Secure Electronic File Transfer \(SEFT\)](#) platform.

This service is currently used to submit a range of information. The platform is a web-based solution that does not require the installation of any software, apart from the use of a compatible web browser.

The collection will also be supported by a range of technical and business controls at NHS Digital, including validation of data submitted against the XML Schema.

Period of the collection

The data collection is scheduled to take place from 9am on 16 November to 5pm on 9 December 2022 inclusive. Data can only be submitted within this time-period.

This is a one-off collection of data relating to Financial Year 2021/22 data to test the collection process and analysis of PLICS information from Early Implementers that have agreed to participate, as per Annex A Section 2 of the [Requirements Specification for Patient Level Information and Costing Systems \(PLICS\) Early Implementers Collection for Further Services for FY 2021/22 data](#).

NHS England has also issued further communications to providers on the scheduling of submissions within the above dates.

Transparency

As NHS Digital is collecting personal data from Trusts through this collection, Trusts have a legal duty to be transparent and to provide patients with transparency information under Articles 13 and 14 of the UK GDPR about the data they are sharing with NHS Digital. Trusts should therefore consider whether they need to update their own Transparency materials to include details of this collection.

Data quality

Data quality will be supported by a range of technical and business controls at NHS Digital, including validation of data submitted against the XML Schema.

The [PLICS early implementers: Voluntary cost collection for further services 2021/22 guidance](#), published by NHS England on the Open Learning Platform (OLP), contains further guidance for Trusts prior to and during data submission.

As a pilot data collection exercise an aspect of this collection is to help identify and inform possible data quality issues that can help and support the development of future mandated collections of this data.

Sensitive and Legally restricted data – guidance for the collection

Patient Level feed types

Trusts will not submit data at **patient level** in PLICS for patients receiving services or treatments where there is sensitive/legally restricted data.

This includes the following feed types: Admitted Patient Care (APC), Non-Admitted Patient Care (NAPC), Supplementary Information (SI) and Community Services Care Contacts (CSCC)

The list of excluded data covers the below treatment and diagnosis categories:

- HIV and AIDS
- sexually transmitted disease
- gender re-assignment
- reproductive medicine

The below table identifies the Healthcare Resource Groups (HRGs) which are **excluded at patient level**:

HRG-level exclusions at Patient Level

HRG	HRG description
MC07Z	Intrauterine insemination with superovulation
MC08Z	Intrauterine insemination with superovulation, with donor
MC09Z	Intrauterine insemination without superovulation
MC10Z	Intrauterine insemination without superovulation, with donor
MC11Z	Implantation of embryo
MC12Z	Oocyte recovery
MC13Z	Donor oocyte recovery
MC14Z	Oocyte recovery with intracytoplasmic sperm injection
MC15Z	Oocyte recovery with pre-implantation genetic diagnosis
MC20Z	Surgical extraction of sperm
MC21Z	Collection of sperm
WJ10A	HIV disease with multiple interventions
WJ10B	HIV disease with single intervention, with CC score 5+
WJ10C	HIV disease with single intervention, with CC score 0–4
WJ10D	HIV disease without interventions, with CC score 5+
WJ10E	HIV disease without interventions, with CC score 2–4
WJ10F	HIV disease without Interventions, with CC score 0–1
WJ04Z	Genito-urinary medicine (GUM) infections
XD38Z	Antiretroviral Drugs, Band 1

NHS Digital will reject any PLICS XML file if it contains one or more of the excluded HRGs above at **patient level**, as part of the file validation process.

You should filter out data to the most granular level (OPCS/ICD10 code) to ensure you capture all attendances and episodes that are excluded from the PLICS collection.

The below tables identify Procedure and Diagnosis level exclusions.

Procedure-level exclusions

OPCS code	Description
N341	Fertility investigation of male NEC
N342	Collection of sperm NEC
N343	Male colposcopy
N344	Microsurgical epididymal sperm aspiration
N345	Percutaneous epididymal sperm aspiration
N346	Testicular sperm extraction
Q131	Transfer of embryo to uterus NEC
Q132	Intracervical artificial insemination
Q133	Intrauterine artificial insemination
Q134	Intrauterine insemination with superovulation using partner sperm
Q135	Intrauterine insemination with superovulation using donor sperm
Q136	Intrauterine insemination without superovulation using partner sperm
Q137	Intrauterine insemination without superovulation using donor sperm
Q138	Other specified introduction of gametes into uterine cavity
Q139	Unspecified introduction of gametes into uterine cavity
Q211	Transmyometrial transfer of embryo to uterus
Q218	Other specified other introduction of gametes into uterine cavity
Q219	Unspecified other introduction of gametes into uterine cavity
Q382	Endoscopic injection into fallopian tube
Q383	Endoscopic intrafallopian transfer of gametes
Q481	Endoscopic transurethral ultrasound directed oocyte recovery
Q482	Endoscopic trans vesical oocyte recovery
Q483	Laparoscopic oocyte recovery
Q484	Transvaginal oocyte recovery

Q488	Other specified oocyte recovery
Q489	Unspecified oocyte recovery
Q561	Fertility investigation of female NEC
Q562	Fertiloscopy
U321	Human immunodeficiency virus blood test
X866	Antiretroviral drugs Band 1
X151	Combined operations for transformation from male to female
X152	Combined operations for transformation from female to male
X154	Construction of scrotum
X158	Other specified operations for sexual transformation
X159	Unspecified operations for sexual transformation
Y961	In vitro fertilisation with donor sperm
Y962	In vitro fertilisation with donor eggs
Y963	In vitro fertilisation with intracytoplasmic sperm injection
Y964	In vitro fertilisation with intracytoplasmic sperm injection and donor egg
Y965	In vitro fertilisation with pre-implantation for genetic diagnosis
Y966	In vitro fertilisation with surrogacy
Y968	Other specified in vitro fertilisation
Y969	Unspecified in vitro fertilisation

Diagnosis-level exclusions

ICD10 code	Description
A500	Early congenital syphilis, symptomatic
A501	Early congenital syphilis, latent
A502	Early congenital syphilis, unspecified
A503	Late congenital syphilitic oculopathy
A504	Late congenital neurosyphilis [juvenile neurosyphilis]
A505	Other late congenital syphilis, symptomatic
A506	Late congenital syphilis, latent

ICD10 code	Description
A507	Late congenital syphilis, unspecified
A509	Congenital syphilis, unspecified
A510	Primary genital syphilis
A511	Primary anal syphilis
A512	Primary syphilis of other sites
A513	Secondary syphilis of skin and mucous membranes
A514	Other secondary syphilis
A515	Early syphilis, latent
A519	Early syphilis, unspecified
A520	Cardiovascular syphilis
A521	Symptomatic neurosyphilis
A522	Asymptomatic neurosyphilis
A523	Neurosyphilis, unspecified
A527	Other symptomatic late syphilis
A528	Late syphilis, latent
A529	Late syphilis, unspecified
A530	Latent syphilis, unspecified as early or late
A539	Syphilis, unspecified
A540	Gonococcal infection of lower genitourinary tract without periurethral or accessory gland abscess
A541	Gonococcal infection of lower genitourinary tract with periurethral and accessory gland abscess
A542	Gonococcal pelviperitonitis and other gonococcal genitourinary infections
A543	Gonococcal infection of eye
A544	Gonococcal infection of musculoskeletal system
A545	Gonococcal pharyngitis
A546	Gonococcal infection of anus and rectum
A548	Other gonococcal infections
A549	Gonococcal infection, unspecified

ICD10 code	Description
A55X	Chlamydial lymphogranuloma (venereum)
A560	Chlamydial infection of lower genitourinary tract
A561	Chlamydial infection of pelviperitoneum and other genitourinary organs
A562	Chlamydial infection of genitourinary tract, unspecified
A563	Chlamydial infection of anus and rectum
A564	Chlamydial infection of pharynx
A568	Sexually transmitted chlamydial infection of other sites
A57X	Chancroid
A58X	Granuloma inguinale
A590	Urogenital trichomoniasis
A600	Herpes viral infection of genitalia and urogenital tract
A601	Herpes viral infection of perianal skin and rectum
A609	Anogenital herpes viral infection, unspecified
A630	Anogenital (venereal) warts
A638	Other specified predominantly sexually transmitted diseases
A64X	Unspecified sexually transmitted disease
A65X	Non-venereal syphilis
A740	Chlamydial conjunctivitis
A749	Chlamydial infection, unspecified
B171	Acute hepatitis C
B200	HIV disease resulting in mycobacterial infection
B201	HIV disease resulting in other bacterial infections
B202	HIV disease resulting in cytomegaloviral disease
B203	HIV disease resulting in other viral infections
B204	HIV disease resulting in candidiasis
B205	HIV disease resulting in other mycoses
B206	HIV disease resulting in <i>Pneumocystis jirovecii</i> pneumonia
B207	HIV disease resulting in multiple infections

ICD10 code	Description
B208	HIV disease resulting in other infectious and parasitic diseases
B209	HIV disease resulting in unspecified infectious or parasitic disease
B210	HIV disease resulting in Kaposi sarcoma
B211	HIV disease resulting in Burkitt lymphoma
B212	HIV disease resulting in other types of non-Hodgkin lymphoma
B213	HIV disease resulting in other malignant neoplasms of lymphoid, haematopoietic and related tissue
B217	HIV disease resulting in multiple malignant neoplasms
B218	HIV disease resulting in other malignant neoplasms
B219	HIV disease resulting in unspecified malignant neoplasm
B220	HIV disease resulting in encephalopathy
B221	HIV disease resulting in lymphoid interstitial pneumonitis
B222	HIV disease resulting in wasting syndrome
B227	HIV disease resulting in multiple diseases classified elsewhere
B230	Acute HIV infection syndrome
B231	HIV disease resulting in (persistent) generalised lymphadenopathy
B232	HIV disease resulting in haematological and immunological abnormalities, not elsewhere classified
B238	HIV disease resulting in other specified conditions
B24X	Unspecified human immunodeficiency virus (HIV) disease
F640	Transsexualism
F641	Dual-role transvestism
F642	Gender identity disorder of childhood
F648	Other gender identity disorders
F649	Gender identity disorder, unspecified
F651	Fetishistic transvestism
F656	Multiple disorders of sexual preference
F660	Sexual maturation disorder
F661	Egodystonic sexual orientation

ICD10 code	Description
F662	Sexual relationship disorder
F668	Other psychosexual development disorders
F669	Psychosexual development disorder, unspecified
N46X	Male infertility
N970	Female infertility associated with anovulation
N971	Female infertility of tubal origin
N972	Female infertility of uterine origin
N973	Female infertility of cervical origin
N974	Female infertility associated with male factors
N978	Female infertility of other origin
N979	Female infertility, unspecified
N980	Infection associated with artificial insemination
O981	Syphilis complicating pregnancy, childbirth and the puerperium
O982	Gonorrhoea complicating pregnancy, childbirth and the puerperium
O983	Other infections with a predominantly sexual mode of transmission complicating pregnancy, childbirth and the puerperium
O987	Human immunodeficiency virus (HIV) disease complicating pregnancy, childbirth and the puerperium
R75X	Laboratory evidence of human immunodeficiency virus (HIV)
R762	False-positive serological test for syphilis
Z113	Special screening examination for infections with a predominantly sexual mode of transmission
Z114	Special screening examination for human immunodeficiency virus (HIV)
Z202	Contact with and exposure to infections with a predominantly sexual mode of transmission
Z206	Contact with and exposure to human immunodeficiency virus (HIV)
Z21X	Asymptomatic human immunodeficiency virus (HIV) infection status
Z224	Carrier of infections with a predominantly sexual mode of transmission
Z310	Tuboplasty or vasoplasty after previous sterilization
Z311	Artificial insemination

ICD10 code	Description
Z312	In vitro fertilization
Z313	Other assisted fertilization methods
Z314	Procreative investigation and testing
Z315	Genetic counselling
Z316	General counselling and advice on procreation
Z318	Other procreative management
Z319	Procreative management, unspecified
Z350	Supervision of pregnancy with history of infertility
Z717	Human immunodeficiency virus (HIV) counselling
Z830	Family history of human immunodeficiency virus (HIV) disease

Community Health Services PLICS Currency

Data must be excluded at **patient level** for services related to HIV/AIDS for the 'Community Health Services PLICS Currency' in the CSCC Feed Type for the 4 Currency Codes below:

Data Set	Service Code	Service Name	Currency Code	Currency Name
CSCC	NURS	Nursing	N18AF	Specialist Nursing, HIV/AIDS Nursing Services, Adult, Face to face
CSCC	NURS	Nursing	N18AN	Specialist Nursing, HIV/AIDS Nursing Services, Adult, Non face to face
CSCC	NURS	Nursing	N18CG	Specialist Nursing, HIV/AIDS Nursing Services, Child, Face to face
CSCC	NURS	Nursing	N18CN	Specialist Nursing, HIV/AIDS Nursing Services, Child, Non face to face

NHS Digital will reject any PLICS XML file if it contains one or more of the excluded Currency Codes above at patient level as part of the file validation process.

Where contacts are for services in the excluded treatment and diagnosis categories as set out above data is also to be excluded, including where these contacts relate to the 4 Currency Codes below:

Data Set	Service Code	Service Name	Currency Code	Currency Name
CSCC	NURS	Nursing	N19AF	Specialist Nursing, Infectious Diseases, Adult, Face to face
CSCC	NURS	Nursing	N19AN	Specialist Nursing, Infectious Diseases, Adult, Non face to face
CSCC	NURS	Nursing	N19CF	Specialist Nursing, Infectious Diseases, Child, Face to face
CSCC	NURS	Nursing	N19CN	Specialist Nursing, Infectious Diseases, Child, Non face to face

Aggregated Feed type

Trusts will submit some data in PLICS at **aggregate level only** for services or treatments where there is sensitive/legally restricted data.

Data submitted within the non-patient level Aggregated (AGG) feed type will not include any patient identifiable data items.

The below table identifies the Healthcare Resource Groups (HRGs) which have previously been excluded from PLICS but are now included at an aggregated level:

HRG-level included at aggregate level

HRG	HRG description
MC07Z	Intrauterine insemination with superovulation
MC08Z	Intrauterine insemination with superovulation, with donor
MC09Z	Intrauterine insemination without superovulation
MC10Z	Intrauterine insemination without superovulation, with donor
MC11Z	Implantation of embryo
MC12Z	Oocyte recovery
MC13Z	Donor oocyte recovery
MC14Z	Oocyte recovery with intracytoplasmic sperm injection
MC15Z	Oocyte recovery with pre-implantation genetic diagnosis
MC20Z	Surgical extraction of sperm
MC21Z	Collection of sperm
WJ10A	HIV disease with multiple interventions
WJ10B	HIV disease with single intervention, with CC score 5+

HRG	HRG description
WJ10C	HIV disease with single intervention, with CC score 0–4
WJ10D	HIV disease without interventions, with CC score 5+
WJ10E	HIV disease without interventions, with CC score 2–4
WJ10F	HIV disease without Interventions, with CC score 0–1
WJ04Z	Genito-urinary medicine (GUM) infections
XD38Z	Antiretroviral Drugs, Band 1

Community Health Services PLICS Currency

Data for services related to HIV/AIDS for the ‘Community Health Services PLICS Currency’ in the CSCC Feed Type for the 4 Currency Codes below must only be submitted in the non-patient level Aggregated (AGG) feed type:

Data Set	Service Code	Service Name	Currency Code	Currency Name
CSCC	NURS	Nursing	N18AF	Specialist Nursing, HIV/AIDS Nursing Services, Adult, Face to face
CSCC	NURS	Nursing	N18AN	Specialist Nursing, HIV/AIDS Nursing Services, Adult, Non face to face
CSCC	NURS	Nursing	N18CN	Specialist Nursing, HIV/AIDS Nursing Services, Child, Non face to face

Drugs

For Drug codes submitted as part of the Supplementary Information (SI) feed type, the only Drug codes accepted are those detailed in the Extract Specification “Ref Data – Currency Codes” worksheet, where Currency Type Code = 5 or 6.

NHS Digital will NOT reject any PLICS XML file if it contains one or more Drug Codes not included in the above worksheet as detailed.

Burden of the collection

Steps taken by NHS Digital to minimise the burden of collection

In seeking to minimise the burden it imposes on others, in line with sections 253 (2a) and 265(3) of the Health and Social Care Act 2012, NHS Digital has an assessment process to validate and challenge the level of burden incurred through introducing new information standards, collections and extractions.

This assessment is carried out by the Data Standards and Assurance Service (DSAS) which carries out a Detailed Burden Assessment (DBA) and reports findings and recommendations, as part of the overarching Data Alliance Partnership Board (DAPB) process. The DAPB oversees the development, assurance and acceptance of information standards, data collections and data extractions for the health and social care system in England.

As a pilot this Early Implementer data collection is out of scope of a formal burden assessment for the DAPB. However, an informal assessment of costs will take place during the preparation for these data becoming mandatory for collection (and therefore subject to a DAPB assessment).

Annex A Section 2: NHS Providers

Trust ODS Code	Trust Name
