

# National Diabetes Audit:

helping to improve  
diabetes care

**This GP practice is taking part in an important national project about people at risk of diabetes and diabetes care and treatment in the NHS.**

**The project is called the National Diabetes Audit (NDA).**

If you have diabetes, non-diabetic hyperglycaemia, impaired glucose tolerance or pre-diabetes, your GP practice will share information about your diabetes care and treatment with the NDA. The type of information, and how it is shared, is controlled by law and enforced by strict rules of confidentiality and security.

**Taking part in the NDA shows that this GP practice is committed to reducing diabetes and improving care for people with diabetes.**

**Important  
Patient  
Information**

Whilst all NDA information must be submitted to NHS England, you can stop your data from being shared any further. This will not affect your care.

More information is available – please ask a member of staff for a patient information leaflet or contact NHS England:
