

National Diabetes Footcare Audit: healing feet faster

Your diabetic foot care team is taking part in a national project to measure the healing of diabetic foot ulcers.

The project is called the **National Diabetes Footcare Audit (NDFA)** and aims to identify how foot ulcers can be best managed.

To take part in the Audit, your footcare team will collect information about any ulcer you may have. The data will be held on a secure electronic system. The collection, and use of such information, is strictly controlled by law and follows national standards of confidentiality and security.

By taking part in the NDFA, this service shows that it is committed to improving the care of people with diabetes.

**Important
Patient
Information**

Whilst all NDFA information must be submitted to NHS England, you can stop your data from being shared any further. This decision will not affect your care.

More information is available – please ask a member of staff for a patient information leaflet or contact NHS England:

E-mail: ndfa@nhs.net **Telephone:** 0300 303 5678
