

NHS Data Model and Dictionary

Type: Change Request
Reference: 1944
Version No: 1.0
Subject: Introduction of OPCS-4.11
Effective Date: 1 April 2026
Reason for Change: Change to Information Standards
Publication Date: 29 October 2025

Background:

The OPCS Classification of Interventions and Procedures Version 4.10 was approved by the Data Alliance Partnership Board (DAPB) as [DABP0084 Amd 36/2022: OPCS Classification of Interventions and Procedures](#), for use from 1st April 2023.

The OPCS Classification of Interventions and Procedures Version 4.11 (OPCS-4.11) is introduced for use from 1 April 2026. OPCS-4.11 printed coding books will not be provided, content will only be available in the [NHS Classifications Browser](#).

OPCS-4.11 introduces new codes and descriptions, retires codes and makes changes to code descriptions resulting from user submissions to the OPCS-4 Request Submission Portal.

The final changes are listed in the Summary of Changes from OPCS-4.10 to OPCS-4.11 which are available via the Technology Reference Data Update Distribution Service (TRUD) with the release files in the first week in November 2025.

The Clinical Classification, OPCS-4, is mandatory for the Admitted Patient Care Commissioning Data Set (CDS) and wherever there is a national requirement to support secondary uses.

To support the Information Standard, this Change Request updates the OPCS page within the NHS Data Model and Dictionary.

A short demonstration is available which describes "How to Read an NHS Data Model and Dictionary Change Request", in an easy to understand screen capture including a voice over and readable captions. This demonstration can be viewed at: https://datadictionary.nhs.uk/elearning/change_request/index.html.

Note: if the web page does not open, please copy the link and paste into the web browser. A guide to how to use the demonstration can be found at: [Demonstrations](#).

OPCS CLASSIFICATION OF INTERVENTIONS AND PROCEDURES

Change to Supporting Information: Changed Description

The OPCS Classification of Interventions and Procedures ([OPCS-4](#)) is a Fundamental Information Standard which is revised periodically. The classification is used by [Health Care Providers](#) and national and regional [ORGANISATIONS](#).

[OPCS-4](#) is used to support operational and strategic planning, resource utilisation, performance management, reimbursement, research and epidemiology. It is used by NHS suppliers to build/update software to support NHS business functions and interoperability.

The classification consists of two volumes; Tabular List and Alphabetical Index. ~~It is accessible in the Classifications Browser at <https://classbrowser>.~~ It is accessible in the NHS Classifications Browser at <https://classbrowser.nhs.uk> which also contains links to the National Clinical Coding Standards.

~~The classification is also available for purchase in paper format from The Stationary Office at www.tsoshep.co.uk~~

National information standards and data collections, such as Commissioning Data Sets requiring [OPCS-4](#) coding should use the latest mandated version of the [OPCS-4](#) as given in the table below:
