

Corrigendum

Standard	SCCI2026 Female Genital Mutilation Enhanced Dataset
Release	Amd 12/2014 Initial standard
Date of ISCE publication	01 April 2015
Date of Corrigendum	20 April 2015

Background

The Female Genital Mutilation Enhanced Dataset information standard was published on 1 April 2015. Since then an error has been identified in the following published documents:

- Requirements Specification
- Implementation Guidance.

These are available on [the HSCIC website](#).

Summary

The following data element, with values, is listed in the two documents.

FEMALE GENITAL MUTILATION (IDENTIFICATION)

Self-Report

On Examination

This data element had been updated prior to publication and should be replaced by:

FEMALE GENITAL MUTILATION IDENTIFICATION METHOD CODE

1 Self report (includes notification by the PATIENT, social worker, teacher etc.)

2 On examination by CARE PROFESSIONAL

3 Other CARE PROFESSIONAL

X Other

The associated NHS Data Model and Dictionary Change Request (CR 1494) on the HSCIC website is correct.

The specification used within the submission tool, HSCIC Clinical Audit Platform, is correct.
