

NHS Data Model and Dictionary

Type:	Change Request
Reference:	1613
Version No:	1.0
Subject:	Introduction of Patient Level Contract Monitoring Data Set
Effective Date:	1 April 2019
Reason for Change:	Change to Information Standards
Publication Date:	26 April 2019

Background:

The purpose of the Patient Level Contract Monitoring Data Set (PLCM) is to enable the interchange, in a uniform format, of monthly patient level contract monitoring data between all purchasers and healthcare providers. This will ensure that contract monitoring and reporting is consistent, comparable and fit for purpose across all commissioning organisations.

The Patient Level Contract Monitoring Data Set is a patient level report containing patient identifiers. Its purpose is to substantiate and provide detail to the information contained within the Aggregate Contact Monitoring (ACM). It will contain details of patient level clinical activities that are not found in flows of standard Commissioning Data Sets (CDS) submitted to the Secondary Uses Service.

The scope of the Patient Level Contract Monitoring Data Set Information Standard is all NHS-funded acute and community clinical care (excluding drugs and medical devices not covered by the National Tariff Payment System) provided to patients as well as financial adjustments not attributed directly to clinical care, for all commissioners.

This covers:

- All acute and community NHS and Independent Sector secondary healthcare providers, but not primary care, from whom the NHS commissions healthcare
- All NHS commissioners (Clinical Commissioning Groups or their equivalents and NHS England).

The Patient Level Contract Monitoring Data Set is required to be submitted on a monthly basis to the respective Data Services for Commissioners Regional Office organisation as nominated by each commissioning function in line with the dates documented in the data submission timetable within Schedule 6 of the NHS Standard Contract.

This Change Request adds the Patient Level Contract Monitoring Data Set and supporting definitions to the NHS Data Model and Dictionary to support the Information Standard.

To view a demonstration on "How to Read an NHS Data Model and Dictionary Change Request", visit the NHS Data Model and Dictionary help pages at: http://www.datadictionary.nhs.uk/Flash_Files/changerequest.htm.

Note: if the web page does not open, please copy the link and paste into the web browser.

[Patient Level Contract Monitoring Data Set Overview](#)

For a "Full Screen" view, click [Patient Level Contract Monitoring Data Set](#).

In the "Full Screen" view, to return to the "Data Set" view, click the browser "back" button.

The Mandatory, Required or Optional (M/R/O) column indicates the recommendation for the inclusion of data.

- M = Mandatory: this data element is mandatory and the technical process (e.g. submission of the data set, production of output etc) cannot be completed without this data element being present
- R = Required: NHS business processes cannot be delivered without this data element
- O =Optional: the inclusion of this data element is optional as required for local purposes.

For guidance on the Data Set constraints, see the [Patient Level Contract Monitoring Data Set Constraints](#).

ACTIVITY DATE FOR AGE (CONTRACT MONITORING)

Change to Supporting Information: Changed Description

~~This item is being used for development purposes and has not yet been approved.~~ An Activity Date for Age (Contract Monitoring) is the ACTIVITY DATE used to calculate the age of the PATIENT, for the Contract Monitoring Data Sets.

An Activity Date for Age (Contract Monitoring) is specified according to the specific data set as follows:

DATA SET	ACTIVITY DATE
<u>Patient Level Contract Monitoring</u>	
<u>Admitted Patient Care</u>	<u>END DATE (EPISODE)</u>
<u>Out-Patient Appointment</u>	<u>APPOINTMENT DATE</u>
<u>Emergency Care Attendance</u>	<u>EMERGENCY CARE ARRIVAL DATE / EMERGENCY CARE ARRIVAL TIME</u>
<u>Patient Level Devices Contract Monitoring</u>	<u>CLINICAL INTERVENTION DATE (MEDICAL DEVICE IMPLEMENTATION)</u>
<u>Patient Level Drugs Contract Monitoring</u>	<u>CLINICAL INTERVENTION DATE (DRUG ADMINISTERED)</u>

ACTIVITY END DATE (CONTRACT MONITORING)

Change to Supporting Information: New Supporting Information

An Activity End Date (Contract Monitoring) is the date on which a commissioned ACTIVITY is deemed to have ended, for the purposes of Contract Monitoring.

The Activity End Date (Contract Monitoring) for:

- Admitted patient care:
 - Finished Consultant Episodes (FCEs) is END DATE (EPISODE)
 - Hospital Provider Spells is the DISCHARGE DATE (HOSPITAL PROVIDER SPELL)
- Out-Patient Appointments (non-admitted care and diagnostic tests) is the APPOINTMENT DATE
- Packages of Care is the END DATE of the ACTIVITY within the Package of Care
- Emergency Care Attendances is the EMERGENCY CARE DEPARTURE DATE
- Critical care is the END DATE of that particular level of critical care.

This supporting information is also known by these names:

Context	Alias
plural	Activity End Dates (Contract Monitoring)

ACTIVITY START DATE (CONTRACT MONITORING)

Change to Supporting Information: New Supporting Information

An Activity Start Date (Contract Monitoring) is the date on which a commissioned ACTIVITY is deemed to have occurred, for the purposes of Contract Monitoring.

The Activity Start Date (Contract Monitoring) for:

- Admitted patient care:
 - Finished Consultant Episodes (FCEs) is START DATE (EPISODE)
 - Hospital Provider Spells is START DATE (HOSPITAL PROVIDER SPELL)
- Out-Patient Appointments (non-admitted care and diagnostic tests) is the APPOINTMENT DATE
- Packages of Care is the date of the ACTIVITY within the Package of Care
- Emergency Care Attendances is the EMERGENCY CARE ARRIVAL DATE
- Critical care is the START DATE of that particular level of critical care.

This supporting information is also known by these names:

Context	Alias
plural	Activity Start Dates (Contract Monitoring)

PACKAGE OF CARE OR YEAR OF CARE START DATE (CONTRACT MONITORING)

Change to Supporting Information: New Supporting Information

A Package of Care or Year of Care Start Date (Contract Monitoring) is an ACTIVITY DATE TIME.

A Package of Care or Year of Care Start Date (Contract Monitoring) is the agreed initial Start Date of a Package of Care or year of care for the purpose of Contract Monitoring.

This supporting information is also known by these names:

Context	Alias

PATIENT LEVEL CONTRACT MONITORING DATA SET OVERVIEW

Change to Supporting Information: New Supporting Information

Introduction

The purpose of the Patient Level Contract Monitoring Data Set (PLCM) is to enable the interchange, in a uniform format, of monthly PATIENT level Contract Monitoring data between all purchasers and Health Care Providers. This will ensure that Contract Monitoring and reporting is consistent, comparable and fit for purpose across all commissioning Organisations.

The Patient Level Contract Monitoring Data Set is a PATIENT level report containing PATIENT identifiers. Its purpose is to substantiate and provide detail to the information contained within the Aggregate Contract Monitoring Data Set (ACM). It will contain details of PATIENT level clinical activities that are not found in flows of standard Commissioning Data Sets (CDS) submitted to the Secondary Uses Service.

Scope

The scope of the Patient Level Contract Monitoring Data Set Information Standard is all NHS-funded acute and community clinical care (excluding drugs and MEDICAL DEVICES not covered by the National Tariff Payment System) provided to PATIENTS, as well as financial adjustments not attributed directly to clinical care, for all commissioners.

This covers:

- All acute and community NHS and secondary care Independent Sector Healthcare Providers, but not primary care, from whom the NHS commissions healthcare
- All NHS commissioners (Clinical Commissioning Groups (CCG) or their equivalents and NHS England).

Note that the that the totality of expenditure in the Patient Level Contract Monitoring Data Set must be equivalent to the monetary value (excluding drugs and MEDICAL DEVICES not covered by the National Tariff Payment System) shown in the Aggregate Contract Monitoring Data Set.

Submission

The Patient Level Contract Monitoring Data Set is submitted on a monthly basis to the respective Data Services for Commissioners Regional Office (DSCRO) as nominated by each commissioning function in line with the dates documented in the data submission timetable within Schedule 6 of the NHS Standard Contract.

The completed monthly [Patient Level Contract Monitoring Data Set](#) should be transmitted using the NHS Digital [Data Landing Portal \(DLP\)](#).

For further information on the [Patient Level Contract Monitoring Data Set](#), see the [NHS England](#) website at: [Specialised Services Reporting Requirements](#).

POINT OF DELIVERY

Change to Supporting Information: Changed Description

~~This item is being used for development purposes and has not yet been approved.~~ A [Point of Delivery](#) is a means of classification for a commissioned health care [ACTIVITY](#), event or item.

A [Point of Delivery](#) describes, for the purposes of reporting, one of a uniform set of commissioned [ACTIVITY](#), event or item types and their associated standard unit of volume (measure) for use by all commissioning functions regardless of [Organisation](#). A [Point of Delivery](#) may relate to an event or item that cannot be described by a specific [ACTIVITY GROUP](#) or [CARE ACTIVITY](#). In cases such as this a [Point of Delivery](#) may relate to physical resource e.g. [WARD](#) capacity, a block contract payment or a contract adjustment.

The [NHS Standard Contract with Health Care Providers](#) stipulates that it is important to provide a mechanism to validate requests for payment. [Service Level Agreement Monitoring](#) systems in widespread use by [Health Care Providers](#) and commissioners use the concept of [Point of Delivery](#) and the standard measures by which each is counted.

The concept of a standard [Point of Delivery](#) is recognised contractually as the means by which differing commissioned health care [ACTIVITIES](#), events or items are reported in the monthly reconciliation statement and is expected to mirror the financial value of the monthly [Health Care Provider](#) invoice.

For further information on [Points of Delivery](#), see the [NHS England](#) website at: [Specialised Services Reporting Requirements](#).
