Background

This document provides notice of a change to the published documents for SCCI0147 National Cancer Waiting Times Data Set to align the SCCI statement of publication with the Information Standards Notice.

Authority to publish

The following documents were published on the [SCCI publication pages](#) on 30 October 2015:

- Requirements specification
- Change specification
- Implementation guidance.

It has been brought to our attention that the SCCI statement of publication in each of these documents made reference to the Department of Health providing authority to publish the information standard under section 250 of the Health and Social Care Act 2012.

This is contrary to the published [Information Standards Notice](#) which correctly stated that authority has been provided by NHS England.

The published documents have now been updated to amend this error. No further content in any of the documents has been changed.
