

**Type:** Change Request  
**Reference:** 1883  
**Version No:** 1.0  
**Subject:** Stop Smoking Services Quarterly Data Set  
**Effective Date:** 1 April 2024  
**Reason for Change:** Change to Information Standards  
**Publication Date:** 29 November 2023

## Background:

The previous version of the Stop Smoking Services Quarterly Data Set was approved by the Data Coordination Board (DCB) as [DCB0155: Stop Smoking Services Quarterly Monitoring Return](#).

A number of changes have been identified since the last version, and these include:

- Retirement of data element and attribute PHARMACOTHERAPY STOP SMOKING AID RECEIVED
- Introduction of data element and attribute STOP SMOKING AID TREATMENT TYPE to collect the type of stop smoking aid treatment given to a person during a Person Stop Smoking Episode
- Updating the INTERVENTION SESSION TYPE FOR STOP SMOKING categories to reflect the different ways that stop smoking interventions are currently being delivered
- Introduction of a new group to report by PERSON STATED SEXUAL ORIENTATION.
- Introduction of a new group to collect data for the swap to stop smoking programme

To support the Information Standard, this Change Request updates the NHS Data Model and Dictionary to introduce the latest version of the Stop Smoking Services Quarterly Data Set.

A short demonstration is available which describes "How to Read an NHS Data Model and Dictionary Change Request", in an easy to understand screen capture including a voice over and readable captions. This demonstration can be viewed at: [https://datadictionary.nhs.uk/elearning/change\\_request/index.html](https://datadictionary.nhs.uk/elearning/change_request/index.html).

Note: if the web page does not open, please copy the link and paste into the web browser. A guide to how to use the demonstration can be found at: [Demonstrations](#).
