Version No: 1.0
Subject: National Workforce Data Set v3.1
Effective Date: 1 January 2020
Reason for Change: Change to Information Standards
Publication Date: 2 July 2019

Background:

The National Workforce Data Set Version V3.0 was approved by the Data Coordination Board (DCB) as [DCB1067 Amd 50/2018](#).

A number of changes to the National Workforce Data Set are required to ensure that the data set remains fit for purpose, continues to reflect current workforce policy and practice, and supports the NHS in relation to workforce.

The changes include amendments to existing attributes and national codes in the National Workforce Data Set. These changes have been approved by the Workforce Information Review Group (WIRG) and where appropriate have also been approved by the Electronic Staff Record Special Interest Group.

This Change Request updates the data set and supporting definitions within the NHS Data Model and Dictionary to support the Information Standard as follows:

- Area of Work Name
- Job Role Code
- Professional Registration Body Code
- Professional Registration Type

AREA OF WORK NAME

Change to Attribute: Changed Description

The name of an area of work.

An area of work is an area, function or specialty where work activity takes place.

An area of work is categorised into three hierarchical levels. Each Primary value is included in the list of Secondary values, and each Secondary value is included in the list of Tertiary values.

The **Primary** area of work is a high level grouping of clinical specialties e.g. Medicine, Surgery, Psychiatry; or support functions e.g. Estates, Facilities; or other broad grouping e.g. Primary Care, Clinical Support.

The **Secondary** area of work includes each recognised clinical specialty, e.g. Neurology, Ophthalmology; other values identify major areas e.g. Outpatients or functions e.g. Catering, Finance, Pharmacy, where work is undertaken.

The **Tertiary** area of work includes each clinical sub-specialty recognised by the Postgraduate Medical Education and Training Board (PMETB) e.g. Metabolic Medicine; other values identify subsidiary work areas or functions where work is undertaken.

Note that this is essentially [Electronic Staff Record \(ESR\)](#) terminology to facilitate workforce planning, and has no direct connection to Primary Care, Secondary Care, Intermediate Care, etc.
