NHS Service Finder for pharmacies

Stop searching through paper information and quickly signpost your patients to the most appropriate care and support services.

What information is available?

Up-to-date referral and contact information, as well as maps and directions including public transport routes. You can even access non-public phone numbers to speak directly to services.

What types of services can I find information about?

There are over 130 service types you can search for, including:

- Community Pharmacist Consultation Service (CPCS) pharmacies
- GP practices (including out-of-hours)
- mental health services
- emergency dentists
- local community services e.g. Urgent Treatment Centres

How to access NHS Service Finder or find further information

Go to servicefinder.nhs.uk and select the 'Log in with my Care Identity' link or the 'help' link, or email service.finder@nhs.net
