

Summary Care Records

Helping to care for you when
your GP practice is closed

If you need care when your GP practice is closed you may need to see a healthcare professional who doesn't know you.

The Summary Care Record is an electronic copy of key information from the record held at your GP practice. It is available to pharmacists and technicians with your permission, and includes details of your medication, allergies and which medicines make you ill.

You can choose if you want a Summary Care Record or not:

For more information:

- ask a member of staff here or at your GP practice
- visit www.digital.nhs.uk/summary-care-records
- call NHS Digital on 0300 303 5678
